EUGAS

POWERFUL RELIEF FOR IBS & DIGESTIVE DISTRESS

The Challenge: IBS & Digestive Distress

10% People worldwide
suffering from IBS

Chronic pain, debilitating bloating, and unpredictable
bowel habits that significantly degrade
QUALITY OF LIFE

Ingredients synergistic Benefits

Activated Charcoal

Acts as an adsorbent to trap intestinal gas molecules, effectively reducing bloating and flatulence

Fennel & Peppermint

Work as natural antispasmodics to relax the smooth muscles of the gut, easing cramps and “trapped gas” sensations

Ginger Root

Enhances gastric motility, helping to move food through the system more efficiently to prevent fermentation and gas buildup.

Licorice & Turmeric

Provide anti-inflammatory support to the gut lining, potentially soothing the hypersensitivity often seen in IBS patients

Papain & Black Pepper

Papain aids in protein digestion, while black pepper (Piperine) increases the bioavailability of the other herbal components

EUGAS

MULTI-ACTION DIGESTIVE
RELIEF | ONCE DAILY CAPSULE

HOW EUGAS MEET THE PATIENT NEED

01

24-Hour Proactive Stabilization: The High-Potency, Once-Daily Dose shifts patients from "reactive rescue" to constant comfort, significantly improving patient compliance.

02

2-Dual-Phase Gas Control: Unlike single-agent remedies, EUGAS uses Mechanical Adsorption to clear current gas and Botanical Prevention to inhibit future formation.

03

3-Precision Bio-Uptake: Engineered with Piperine to ensure that therapeutic extracts reach the target site effectively, not just passing through the system.

EUGAS

Powerful Relief for IBS & DIGESTIVE Distress

Dosage:
One Capsule
Three times Daily
