

GINKOGLU

FILM COATED TABLETS

“Movement is Life... Don't Let It Stop.”

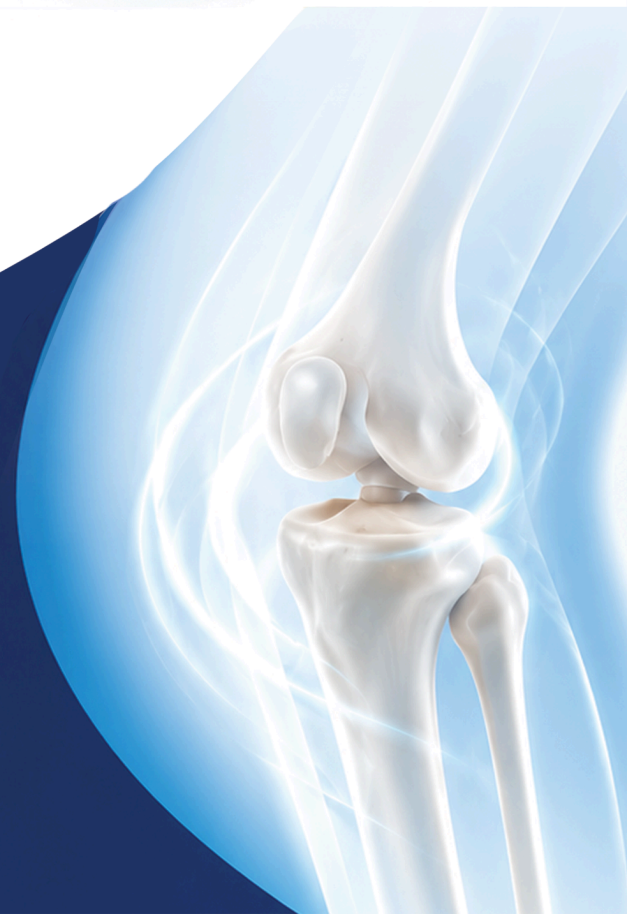

**STIFFNESS .PAIN...
LIMITED MOVEMENT**

These are not just signs of aging
they are signs of joint decline.

GINKOGLU

supports joints from structure
to function.

The Reality of Joint Degeneration

Osteoarthritis is one of the leading causes of disability worldwide

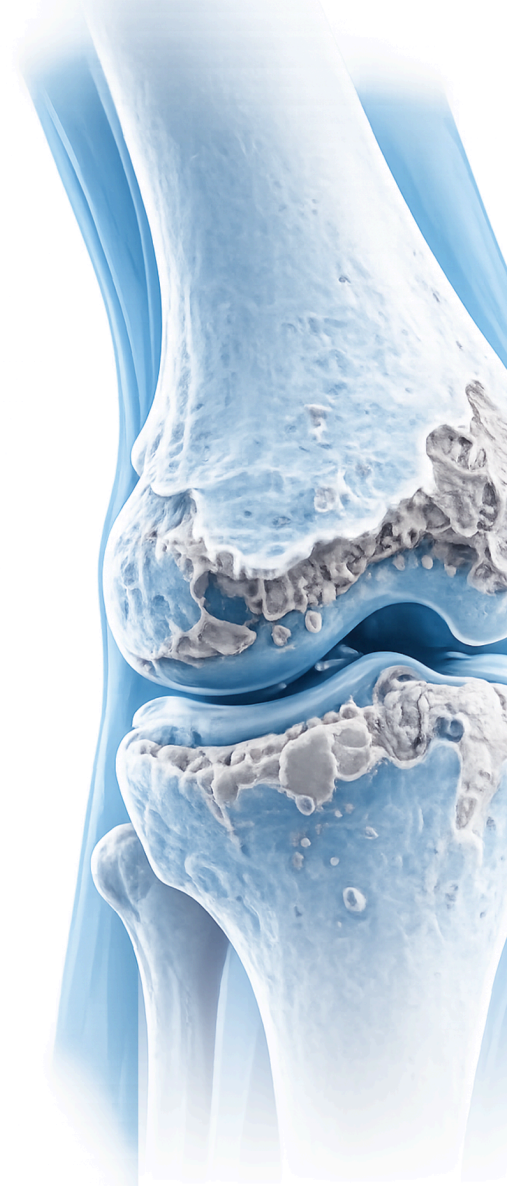

Cartilage damage is progressive and often irreversible

Reduced mobility impacts independence and quality of life

Oxidative stress accelerates joint breakdown

GINKOGLU...More Than Joint Relief

GINKOGLU

Supports cartilage rebuilding

Improves joint lubrication

Enhances flexibility and movement

Reduces stiffness and discomfort

Promotes microcirculation to joint tissues

Supports bone strength and joint stability

GINKOGLU

Rebuild. Lubricate. Strengthen

Multi-Action Joint Formula
