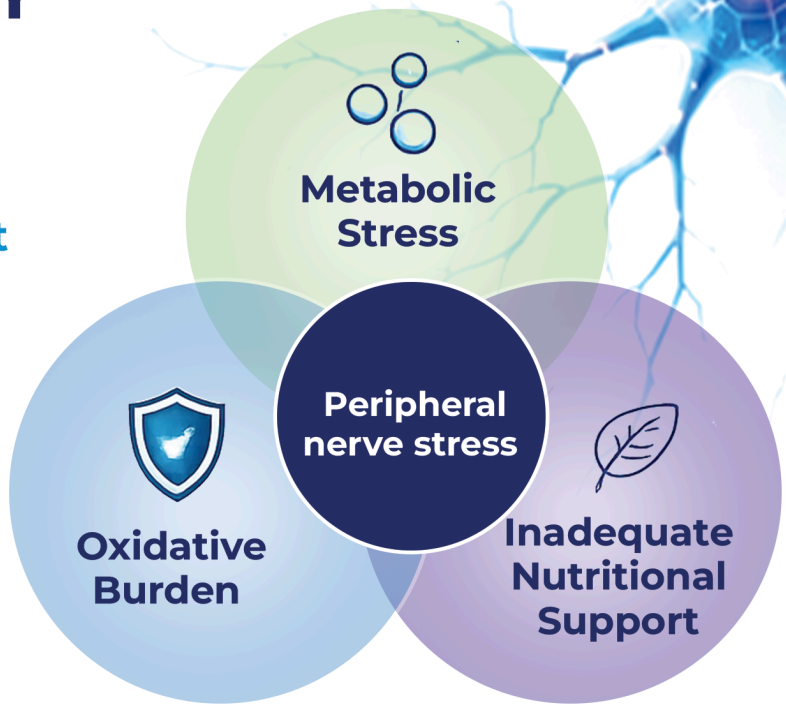
for broader nerve support

PERIPHERAL NERVE STRESS IS RARELY A ONE-FACTOR PROBLEM

That is why broader support makes the difference

Peripheral nerve complaints may be associated with overlapping factors such as metabolic stress, oxidative burden, and inadequate.

This is especially relevant in diabetic patients



SYMPTOMS

Tingling | Numbness | Burning sensation | Reduced sensitivity | Nerve discomfort

WHY BROADER SUPPORT IS NEEDED ?

- **Nerve Nourishment**
- **Antioxidant Defense**
- **Metabolic Support**
- **Functional Vitamin Support**
