FILM COATED TABLETS

## When nerves Complain

(Burning. Tingling. Numbness.)  
support the pathway  
behind the pain.

Nerve  
Pain  
Comfort

Neuro-  
Inflammatory  
Balance

# PEANIZED

FILM COATED TABLETS

Oxidative  
Stress  
Support

Nerve  
Energy  
Support

Burning | Electric pain | Radiating discomfort | Tingling | Numbness

For pain that feels more like a **nerve signal**  
than a simple ache.

# Recognize the nerve-pain pattern

Neuropathic discomfort has a language  
doctors hear every day.

**Burning**

**Electric-  
like pain**

**Radiating  
pain**

**Tingling**

**Numbness**

**Night  
discomfort**

**Pines &  
needles**

Patients with nerve-related pain often use specific words that separate their complaint from ordinary inflammatory or muscular pain. These patients may describe burning, tingling, numbness, electric-like pain, radiating pain, night discomfort, or pins and needles.

## Clinical Recognition

### 1 Diabetic Peripheral Neuropathy

- Burning feet
- Pins and needles
- Night pain
- Numbness
- Walking discomfort

### 2 Sciatica / Lumbar Radiculopathy

- Low back pain radiating to the leg
- Shooting pain
- Tingling
- Numbness

### 3 Cervical Radiculopathy

- Neck pain radiating to shoulder or arm
- Electric-like pain
- Finger tingling

### 4 Cervical Radiculopathy

- Pain with radiation
- Numbness
- Burning
- or electric sensation

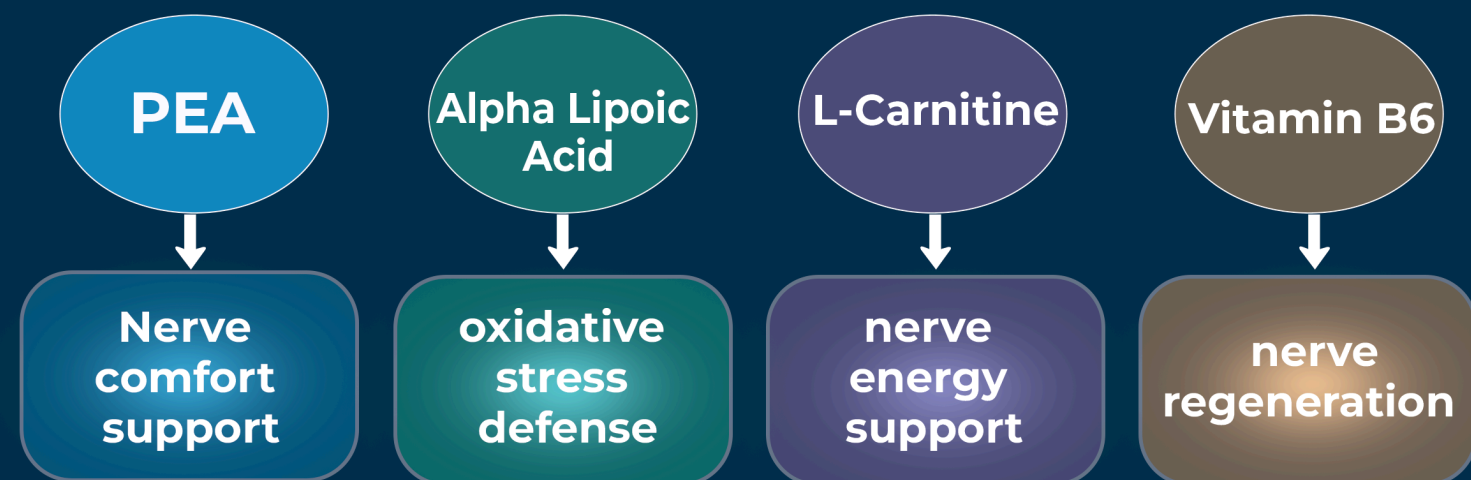

When the patient's words sound neuropathic...  
support should target the nerve pathway.

# Four components.

## One nerve-support strategy

PEANIZED supports nerve-related pain comfort through pain-pathway, antioxidant, metabolic, and nervous-system support.

### Formula Architecture

Pain pathway support meets nerve metabolic care

# Where PEANIZED fits in daily practice

Targeted support for patients with neuropathic symptoms and nerve-related pain burden.

## Suggested Clinical Uses

Diabetic peripheral neuropathy

Burning feet and night nerve discomfort

Sciatica / lumbar radiculopathy

Cervical radiculopathy

Chronic back pain with neuropathic features

Patients describing burning, tingling, numbness, electric-like pain, or radiating discomfort

## Consider PEANIZED when the patient says:

My feet burn at night

I feel pins and needles

The pain goes down my leg

My hand becomes numb

It feels like electricity

I have tingling in my fingers

The pain follows a line

## Direction of Use( dose)

1 or 2 tablets per day after meal.

Swallow with plenty of water.

Or as directed by physician.

# PEANIZED

FILM COATED TABLETS

When nerves complain...  
(burning, tingling, numbness)  
support the pathway behind the pain.
